## PROFILE SUMMARY

I'm a Six-Month Experience Software Developer with an eagerness to learn and grow. My Skills includes developing applications Front-End (HTML and CSS, Bootstrap, JavaScript, React JS), Database (MySQL, Mongo DB), Back-End (Node JS, Python), participating in group projects, and helping to design user interface for a project. My greatest strengths are my problem-solving skills, my ability to work well in a team, and my aptitude for quickly adapting to new technologies. I am highly organized and detail-oriented with excellent communication skills. I have a strong passion for learning and possess the ability to understand complex concepts. I am confident that I can use my skills and knowledge to contribute effectively in the development of software products.

---
